

Dr Shiresh Kedare

An Adjunct Associate Professor in Energy System Engineering, IIT Poway. He is also the Director of Cliques Developments Pvt. Ltd. He has his PhD in Investigations on a Reciprocating Wind Machine. His fields of specialization include Concentration Solar Collectors, Wind machines, thermal energy storage and thermal hybrid systems, industrial applications of renewable energy sources & experimental engineering in renewable energy devices. He is a life member of Solar Energy Society of India (SESI). He has to his credit experience in handling projects on Concentrating and tracking solar collector technology, wind energy and wind machines, solar air heating and drying systems, micro hydro turbine etc. He has got various publications related to energy technologies in national and international journals, conferences and seminars.
